OF PHOTOGRAPHY, KRANJ

NOVEMBER, 2024

Naše fotografsko društvo nosi ime po velikem izumitelju fotografije na steklo, someščanu iz Kranja, Janezu Puharju.

Janez Puhar (1814-1864)

izumitelj fotografije na steklo

Od izuma fotografije na steklo je minilo 180 let. Tri leta po tem, ko je Francoz Daguerre izumil izdelavo fotografij na posrebreno bakreno ploščo, je slovenski duhovnik Janez Puhar iz Kranja izumil fotografijo na stekleno ploščo. To je bila revolucionarna dopolnitev, ki je pocenila postopek izdelave fotografij in omogočila njihovo večkratno reprodukcijo. Fotografija na steklo je bila ustvarjena v Puharjevem "laboratoriju" 19. aprila 1842. Deset let pozneje, 17. junija 1852, mu je v Parizu s podelitvijo častne diplome, to priznala tudi Academie nationale agricole, manufacturiere et commerciale.

Our Photographic Society is named after Janez Puhar, the citizen of Kranj and the inventor of glass plate photography.

Janez Puhar (1814-1864)

The inventor of photography on glass plate

180 years have passed since the invention of photography on glass plate. Three years after the Frenchman Daguerre succeeded to make photographs on a silver-plated copper plaque, a Slovenian priest from Kranj, Janez Puhar came up with the revolutionary technique of glass plate photography. The combination of both methods enabled the reproduction and multiplication of photographs. Puhar invented this technique in his "laboratory" on 19th April 1842. The Academie nationale agricole, manufacturiere et commerciale in Paris recognized this achievement by awarding Janez Puhar an honorary diploma ten years later, on 17th June 1852.

Dvanajsta bienalna razstava fotografij Miniature 2024

Fotografsko društvo Janez Puhar Kranj letos prireja že dvanajsto bienalno razstavo fotografij malega formata »Miniature«, ki je od leta 2022 dalje digitalni salon.

V letu 2024 smo razpisali tri teme: dež, splošno barvno in splošno črno-belo. Odziv avtoric in avtorjev je bil odličen, saj jih je na natečaju sodelovalo 167 iz 27 držav. Skupaj so poslali 1785 fotografij.

Mednarodna žirija je izbrala 152 fotografij na temo »Dež«, 193 fotografij na »Splošno barvno« in 188 fotografij na »Splošno črno-belo« temo. Po številu prejetih fotografij gre za največjo udeležbo v primerjavi s preteklimi leti.

Nagrajene in nekatere sprejete fotografije bodo razstavljene v Galeriji Mestne hiše, najuglednejšem razstavišču v Kranju. O razstavi bo natisnjen tudi katalog, saj menimo, da kljub digitalnemu času, v katerem živimo, katalog predstavlja dokument trajne vrednosti.

Hvala vsem avtoricam in avtorjem, ki ste prispevali svoja dela. Čestitam vsem dobitnicam in dobitnikom nagrad ter pohval.

Zahvaljujem se žirantom za odlično opravljeno delo in celotni ekipi razstave »Miniature« za vso pomoč pri organizaciji in izvedbi projekta.

K izvedbi razstave so pripomogli: Fotografska zveza Slovenije (FZS), Mednarodna zveza za fotografsko umetnost (FIAP), Mestna občina Kranj, Glasbena šola Kranj in Gorenjski muzej Kranj, za kar smo jim iskreno hvaležni.

The Twelfth Biennial Photography Exhibition »Miniature« 2024

This year, the Janez Puhar Photo Society has organized the twelfth »Miniature« salon, a biennial exhibition of small-format photographs, which has also been a digital salon since 2022.

Three themes were announced in 2024 – Rain, General Colour, and General Black and White. The response was outstanding, with 167 authors from 27 countries participating in the competition, their submissions numbering a total of 1,785 photographs.

The international jury selected 152 works on the theme of rain, 193 photographs on the general colour theme and 188 works on the general black-and-white theme. Compared to the number of submissions in previous years, this year marks the largest participation in the salon so far.

All the awarded and some of the accepted photographs will be exhibited in the Town Hall Gallery, the most prestigious exhibition venue in Kranj. A catalogue will be printed on the occasion of the exhibition. We are aware that we live in a digital age, yet we believe that exhibition catalogues in printed form can still present documents of lasting value.

I would like to thank all the authors who contributed their works. Congratulations to all the winners of prizes and commendations.

Further, I would like to express my gratitude to the jurors for their exceptional work and to the entire »Miniature« exhibition team for their help with the organization and implementation of the project.

Last but not least, the exhibition was made possible by the Photographic Federation of Slovenia (FZS), the International Federation of Photographic Art (FIAP), the City Municipality of Kranj, the Music School of Kranj and the Museum of Gorenjska Kranj. We are sincerely grateful to all of them.

Miniature

Fotografski natečaj Miniature 2024 vsebuje tri teme: dež, splošna barvna in splošna črna bela.

Točno določena tema je vedno zelo zanimiva in predstavlja svojevrsten izziv.

Vsak avtor ima svoj pogled in na tak način tudi predstavlja vsebino na fotografiji. Dež srečujemo lahko vsak dan, ne glede na letni čas. Življenje kljub dežju teče naprej – tako delo, zabava, šport, ... – nič ga ne ustavi, le malce posebno je lahko zato. Dež je na fotografijah prikazan v obliki kapljic, luže, rose, snega oziroma kar voda je. Avtorji so zelo dobro ujeli trenutke življenja v dežju. Na črno belih fotografijah je poudarjena sivina deževnega dne, na barvnih pa so z barvami dodali moč življenju.

Fotografije v splošnih temah poudarjajo raznolikost fotografov v smislu pristopa k fotografiranju, razmišljanju in izbire tematike ter tehnike fotografiranja. Domiselne abstrakcije, pogledi in tehnika fotografiranja dokazujejo, da še nismo izčrpali vseh možnosti.

Razpis je zahteval majhen format fotografije. To je bil za avtorje dodaten izziv. Na prikazanih delih so motivi skrbno izbrani in kljub majhnosti zapolnijo opazovani prostor.

Čestitam avtorjem nagrajenih in sprejetih fotografij, Fotografskemu društvu Janez Puhar Kranj pa za dobro organizacijo in izvedbo natečaja.

Predsednik žirije

Miniature

The »Miniature« 2024 photography competition included three themes: Rain, General Colour, and General Black and White.

Precisely defined themes always tend to be very compelling and present a special challenge for the photographers. Each author can embrace their own point of view and present the content in their photographs accordingly. Rain is a commonplace phenomenon, regardless of the season. But it hardly ever stops our everyday activities. Work, leisure and sports – they all go on and rain can only lend them a sense of singularity. The photographs show rain in the form of drops, puddles, dew, snow, or just water. Their authors have captured various rainy moments exquisitely. The black-and-white photographs emphasize the greyness of a rainy day, while their colour counterparts reveal ways in which colours can imbue the captured fragments of life with even more power.

General-themed photographs highlight the diversity of the authors in terms of their approaches to photography, their views, and their choice of subject matter and techniques. Ingenious abstractions, perspectives and photography techniques prove that possibilities for further artistic exploration are far from exhausted.

The call for submissions required small-format photographs, which posed an additional challenge to the authors. The motifs of the exhibited works were carefully selected and, despite their small size, fill the observed space adequately.

My congratulations to the authors of the awarded and accepted photographs, as well as to the Janez Puhar Kranj Photography Society on their outstanding organization and implementation of the competition!
